BK00L SMART BIKE

Adjusts to you

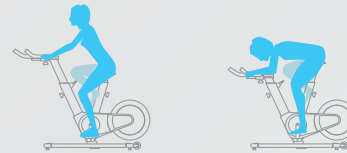

1. Your seat

The seat clamp is universal so you can install your favorite seat. Because we all have our preferences.

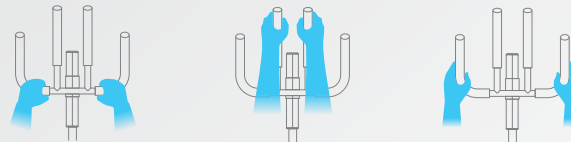

2. The position

The v-shaped design allows the bike to fit any man or woman between 160cm and 195cm tall by adjusting the seat height, handlebar height, and handlebar distance.

3. The handlebar

Intelligently designed, offering a full range of hand positions so you can ride comfortably.

4. The pedals

Includes adjustable toe-clip pedals so multiple family members can use the bike. Or, swap them out with your favorite pedals.
